**On Properties of the Extractee  
in Slavic Coordinated Constructions**

**Wann? 25.06.2018, 16.15-17.45 Uhr**

**Wo? Dorotheenstr. 65, Raum 5.57**

*Abstract*

In this talk, I focus on interpretational properties of sentences containing a coordinated structure and across-the-board movement (ATB) in Slavic. I will identify various syntactic, semantic and pragmatic factors that are relevant to the interpretation of the discussed constructions. I will also present some novel data and discuss whether and how they can be treated by recent approaches to ATB constructions.
