Mutual intelligibility in the Slavic language area

Wann? 27.11.2017, 16.15-17.45 Uhr

Wo? Dorotheenstr. 65, Raum 5.57

Abstract

In this talk, Jelena Golubović will report on the results of her 2016 [University of Groningen dissertation](#). Specifically, she will focus on the measurable linguistic distances between Slavic languages and on the model of mutual intelligibility which she developed on the basis of both linguistic and extra-linguistic factors.
